

## About Us

The Atlanta Sterilized Air Purifiers™ are the best selling air purifier. It combines four advanced filtration technologies to effectively remove a large variety of particulate and molecular air pollutants. Due to its wide effectiveness range it is equally well suited for health conscious individuals as those suffering from a range of respiratory ailments. The molecular effectiveness makes this device also suitable for asthma sufferers, as asthma sufferers are often sensitized to molecular irritants, as well as allergens.

- Provides fresh air and helps in improving overall health with creativity and freshness.
- Have more energy and drive more efficiently, prevents dizziness and fatigue.
- Helps in stopping any type of flu, viral infection, cold, asthma, allergy, headache and skin disease.
- Prevents offensive and irritating smell of smoking, wastages, alcohol smell, human body smell and shoe smell.
- Prevents spread of flu, tuberculosis, measles, chicken pox, legionnaires disease, cold, running nose, aspergillosis, itching, watery eyes, eye flu etc.

The Atlanta Sterilized Air Purifiers™ have received more #1 reviews than any other air purifier

The Atlanta Sterilized Air Purifiers™ features HyperHEPA filtration technology for superior airborne particle removal. HyperHEPA filtration is tested and certified to filter ultra-fine pollution particles down to 0.003 microns in size with a guaranteed minimum efficiency of over 99.5%. This is 100 times smaller than what is achieved with ordinary air filtration technology and 10 times smaller than a virus.

As the world's only manufacturer of room air cleaners, we individually tests each air purifier to ensure that its performance meets our strict specifications.

Our "fan-in-center" design places the fan motor in-between sound attenuating filters. The double-walled housing effectively reduces sound transmission. Rubber suspension pads systematically isolate motor vibration from the air cleaner housing. The result is an air purifier quiet enough for your bedroom.
